Weekly Recipe: Dr. Suess’ Family Snack

1. Mix oats, seeds, dried fruit and cinnamon in a large bowl. In a separate bowl, whisk together nut butter and honey. Add to oat mixture and combine. Mixture should be firm but sticky, similar to oatmeal raisin cookie dough. If too dry, add nut butter in 1 Tablespoon amounts.

2. Line an 8”X 8” baking dish with foil or wax paper and press dough into dish, flattening the mixture. Refrigerate ~4 hours, then cut into squares. This recipe adapts to substitutions – have fun experimenting!
