Colors Of The Rainbow

What is a rainbow? A rainbow is an arc of colors that appear in the sky when it is raining in one part of the sky and sunny in another. It is believed the rainbow got its name from its shape. The arc of the rainbow looks similar to a bow shooting arrows. People noticed that this colorful arc would only form when it was raining so they called it a rainbow!

Some things to chew on

Winter Squash

Fun Facts: The word squash comes from the Native American word Askutasquash which means eaten raw or uncooked. Winter squash has a thick, hard rind which allows for it to last for months after being picked. Squash is a fruit because it contains seeds and develops from the flower of a plant.
