

LUNCH BITES

Reusable Bags!

It is very common to use bags when going to the grocery store. Reusable bags can be washed and brought to the store again and again. This helps take care of our Earth because the disposal of plastic can harm the environment. There are many alternatives to using plastic bags, and other plastic materials such as bottles. By being aware of the bags we use, we can begin to live sustainably!

Hey Kids! Learn about the lifecycle of a plastic bag and how you can help the planet.

LUNCH BITES

POLAR BEARS

Polar bears live in the icy Arctic. They often swim in the Arctic Ocean to find food, such as seals. While their fur appears white, it is actually transparent! This helps them blend in with the snow around them. Their skin underneath their fur is black. This absorbs sunlight to help keep them warm.
