

CLIMATE RESILIENCE IN HOUSING

Oct. 29th 2024

The Environmental Center
16 NW Kansas Ave
Bend OR 97703

12:00-1:00PM
Lunch Provided

Join us in learning from incredible speakers as they discuss climate resilience and its critical connection to housing, highlighting how climate impacts disproportionately affect vulnerable communities.

This event does not necessarily reflect the mission/opinion of The Environmental Center.

- What are **current programs** available to low-income and other vulnerable households?
- What are climate resilience **strategies** for current homeowners?
- What are the broader **policy initiatives** for equitable solutions to climate challenges?
